FOR IMMEDIATE RELEASE

FREE OHIO NOW ORGANIZES TRUMP RALLIES TO ENSURE LEGITIMATE VOTES ARE NOT CANCELED BY FRAUD

Cleveland, Ohio, November 10, 2020 – Free Ohio Now (FON) stands with President Trump and will continue to do rallies in support of the president until every legal vote is counted, and, almost assuredly when this happens, he is legitimately re-elected to a second term. Go to [freeohionow.com](https://www.freeohionow.com) for rally details.

In the run-up to the November 3 election, FON supported Trump Trains and Rallies in 40 counties in Ohio. In total, FON helped to organize and/or promote over 210 events in Ohio from September through election day, and generated an estimated 1.5 million exposures to support President Trump's reelection effort.

Why did we do this? To help earn every legitimate vote possible for the president, and to help him win Ohio and another four years in office. We succeeded in helping him win Ohio, however, our overall effort is being jeopardized by fraudulent voting processes in other swing states.

With the counting in the battleground states of WI, MI, PA, GA and AZ stopped for several days after the election with little explanation or transparency, there is no reason to accept the validity of the final vote count. Tom Hach, Executive Director said, 'An election without rules to prevent fraud, is not an election, but a fraudulent hoax. If we are going to unify America, every American must have confidence legal votes are not canceled by fraudulent votes.'

Tom Hach also said, 'The current situation is akin to a poker game where the hand is called and Player 1 puts his cards on the table. Player 2, after seeing the cards, leaves the room and closes the door. Player 2 then returns and puts his winning hand on the table. Can Player 1 prove there was cheating? No, but he would be a fool to accept this outcome. This, however, is exactly what the the Democrat Party and many in the media want President Trump, and almost half of Americans, to do – be fools - and accept these fraudulent results. He will not stand for it, and neither will we.'

Free Ohio Now asks all rally participants to use their personal discretion in adhering to recommended COVID-19 safety guidelines. This is especially important for those who may be at high-risk.
